

Problem : **Two from the First and One from the Second**

Write a program that allows the user to enter two words and builds a new word by repeatedly interleaving two letters from the first word with one letter from the second word until either source has been exhausted.

Examples :

first	second	new
abcdefgh	ABCDEFGH	abAcdBefCghD
abcdefg	ABCDEFGH	abAcdBefC
abcdefg	AB	abAcdB
best	aspect	beasts
spree	ossify	spores
